

In January 2020 Mr McGarrigle is planning to run a series of 4 **FREE** ICT lessons to support parents using basic ICT skills. This will help to assist children using ICT at home and hopefully make life easier at home. For the course to run, we would need a minimum of 8 parents. Anyone interested please contact Mr McGarrigle or the office and express your desire to attend.

The course will begin on **Tuesday 21<sup>st</sup> January 2020** between **3-3.45pm**. We hope to see you there 😊!
